

LOUISVILLE TIMES.

J. H. ST. GEORGE & JOHN C. NICHOLS, EDITORS.
CITY OF LOUISVILLE.

SATURDAY, DECEMBER 20, 1856.

A Card.

The undersigned, anticipating a change of business, desire to dispose of his interest in the Times office. He has also made an arrangement with his associate by which, if desired by a purchaser, the entire office will be sold.

JNO. O. BULLOCK.

Large deficiencies are already noticed in the receipts of hogs at the several large markets in the West. The Cincinnati Price Current, of Thursday, shows that the receipt of Hogs at that city, up to that date, are 182,373, against 203,582 last year.

Senator Pugh, of Ohio, has given notice of his intention to introduce a bill into the Senate to provide for the improvement of the navigation of the Ohio river.

Fifty thousand dollars is annually expended in New York for singing birds.

Coal is selling at Davenport, Iowa, for 35 cents per bushel.

The skating is capital on White River, Indians.

Scamp.—The word means literally a fugitive from the field, one qui ex campo exit.

LUNCHEON.—Our familiar name of lucheon, derived from the daily meal of the Spaniards, at eleven o'clock, termed once or l'once (pronounced l'one).

Mr. Nicholau of the Union, is arranging his private affairs to retire from that paper after the 4th of March.

A letter from the editor of the Presbyterians Herald from New York, states that the mission for which he and Rev. Dr. Humphrey visited that city, has been very successful. They had already obtained contributions to the amount of \$4,000 for the Danville school and he thinks that this sum may be increased to \$10,000.

WATER BY BORING.—A subterranean river has been struck by the persons engaged in boring an artesian well at Henderson, Kentucky, from which a jet of water is forced up through the bore, and thrown to the height of fifty feet above the ground.

REMOVAL.—Messrs. Hough & Hutchinson have removed their extensive stock of goods to their new buildings in Reynolds' block, one door from Sixth street, on Main.

Mr. J. G. Brown has been appointed pony-post in place of Mr. Goff, who resigned in consequence of ill health. Mr. Brown has been assisting Mr. Goff for some time, and he knows, therefore, the business of the office.

Twenty-five hundred houses are being built in Paris for the working classes. They are to be in groups of fifty, each group forming a square with an open space in the center. Each house to accommodate six families, at a rent of about \$25 each. Each group is to have a public bake-shop and lathing establishment.

Brownlow's Knoxville Whig says that the mother bank of the Bank of East Tennessee, in that place, is paying out gold for all bills payable at Knoxville—for none others. The same paper says that the Ocoee Bank is one of the safest institutions in the State.

A correspondent of the Boston Post suggests a simple preventive of scarlet fever. He says a globe of Bella Donna, taken every morning by each and every member of a family—adults, children, servants and all inmates—will certainly prevent the spread of this dreadful disease in every household that may adopt it, as certainly as vaccination will prevent the small-pox. Ten cents will purchase a year's supply of any of our Homeopathics. A wet finger applied to a globe, and placed upon the tongue of a child or adult, is all that is necessary to be done to prevent the spread of this disease.

THE IRISH AMERICAN PRESIDENT.

Long life to James Buchanan, by the grace of God and the will of the people, President of the United States. We have watched with intense interest the election, and share the feelings of the Irish friends of Martin, Mexico at the result. The cause is in a signal triumph, for we cannot forget, and he never does, that the new President is of Irish blood.

He enters the White House at a most remarkable emergency in the history of the Union, when it may be possible for him to take as grand a part as that which was played by the last Irish President—John J. Adams. We are anxious to know what he will do upon the internal policy of the Union. We can hardly hazard an opinion. We believe it will be to conciliate the Union at all hazards, and be all means. But for the Irish in the States and outside, this even means the downright disengagement of Know Nothingism; it means the extension of the Union wherever possible. Every step in the way of legislation must be made to secure the right of the Union to have upon the internal policy of the Union. We can hardly hazard an opinion. We believe it will be to conciliate the Union at all hazards, and be all means.

For the Irish in Central America.

In four years, the world old and new, will be in new mists. On that of the United States, we care very little. The Somers Democrat has been looking over an old file of papers, and he found a speech delivered in Louisville by Gen. Pilcher, upon the occasion of a public meeting by our citizens to petition the President to request Queen Victoria to release Simon O'Brien. In that speech the following sentence occurs:

"We deeply sympathize with those people (the Irish)—we shall restore them to us, and perhaps the most effectual aid we could render to the needy in England and Ireland, would be to EQUIP SHIPS AND TRANSPORT THEM TO THE RICH LANDS OF THE UNITED STATES, and GIVE them homes—fathers' homes!"

This says the editor, is American ruling America with a vengeance! The Democratic party has been unjustly styled "the foreign party," but it never proposed to do more for them than to give them "equal rights;" but here we have an enthusiastic Pope-farmer determined to bring them in ship loads.

We imagine Pilcher was, at the time he spoke above, in favor of the "paupers and criminals of Europe," ruling America. It has been said that "times change and we change with them," and Pilcher is a living proof of the truth of the adage. A man who could occupy positions so antagonistic should be scorned and the by-standers separated them. We are glad to be able to say that neither was seriously hurt.

DEATH OF AN EDITOR.—We regret to have to announce the death of Mr. Carl Beach, the editor of the Louisville Anzeiger, which occurred Thursday morning. He had been in bad health for some months, and for several weeks had been unable to leave his room. Mr. Beach was a good writer, a gentleman of generous impulses, and a Democrat of the truest impulses.

He was both stout, vigorous, determined and their slows powerful. They struck in earnest, and dashed their hearts as well as their digits at each other's faces. The fight was even, until Capt. Key stumbled over the platform of the pump and fell. Capt. Key rose and resumed the fight. Both were still in earnest and the blows—and tremendous ones too—fell "thick, quick, and heavy as a thunder shower." The exercise was too intense to be continued long. They were becoming exhausted, and the by-standers separated them. We are glad to be able to say that neither was seriously hurt.

DEATH OF A YOUNG KENTUCKIAN.—Dr. Derichson, late a surgeon in Walker's army, returned by the Texas route.

"I am sorry to be able to fulfill the dying request of a young man from Kentucky, Robert Burks, aged only sixteen, and formerly a student of Military school in Kentucky. His parents are very respectable and wealthy. Inspired with a love of military glory, he ran away from home, and died ten days after his arrival in Nicaragua. Two days before his death, he was in his first battle, and was severely wounded. His parents, and we deeply sympathize with his relatives and friends.

THE negro preacher and stealer, Wm. Anderson, was taken to Carrollton and examined, and there awaits a re-quisition from Henry and Trimble counties, where he is said to have operated in running off slaves.

Officer Bligh, on his return from Carrollton, arrested another negro preacher, by the name of Elijah Anderson, on the charge of stealing some negroes from Mr. Gilmer, of Hunter's Bottom. He was taken to Carrollton for examination.

The papers are generally discussing the policy of taking the duty off sugar, for a year or so, to bring the present high prices. The prevailing sentiment seems to be that it is foolish to continue to collect a duty of 30 per cent of the consumers of the article in this country when there can be no object in view, as the Louisiana planter will soon, in case sugar is admitted free, still realize enormous rates for the sugar produced there.

VALENTINE & CO'S EXPRESS.—This freight line is now in active operation, and we learn from their efficient agents in this city, Messrs. McDowell & Robertson, that goods to and from the north, east and west, are being delivered in very quick time, and at moderate rates. Give them a call. They are also agents for the Jeffersonville and New Albany railroads—giving through receipts to all the important points.

—Isaac Kello, a Know-Nothing preacher, and the author of an infamous libelous book, called "Danger in the Dark," sued the Cincinnati Enquirer sometime since for publishing his true character. The case was determined a few days since, and the Reverend rascal received a verdict of one cent damages.

FURTHER FROM NICARAGUA.—The New Orleans Picayune, of the 11th, publishes several letters from its correspondent at Nicaragua, received by the Texas, from which we take the latest. Among the passengers on the Texas was Gen. Hornsby. It is very strange that Gen. II. should have left Nicaragua such a critical time.

VIRGINIA, Dec. 2, 1856.

I write to you under date of the 23d of November, informing you of the total destruction of Granada. It appears, however, that on the 25th, and before the troops had destroyed all the town and removed all the stores and ordnance to the steamer, the enemy surrounded the town and took possession of all communication between it and the town. This did not seem to deter the army in their work of destruction. They immediately drove the enemy from the town and continued to burn and destroy the remaining houses. The enemy, on being driven from the town, concentrated their forces on the beach and main road, driving the few soldiers from the remainder of the town, and occupying it themselves, which was not done, however, without severe loss to themselves.

The steamer Virginia arrived from Granada last night with the cheering news that the army had advanced to within three or four hundred yards of the beach, bringing everything with them. They continued to go on with their work of destruction, and only appeared to be in good spirits, but were riding and walking about behind them because, as it was, no enemy was near.

The enemy attacked them the afternoon before, in the rear and in full force, and after a severe engagement, which lasted some two hours, were repulsed, with no doubt, severe loss, as their troops came to the barrier and waved their flag in token of victory.

There are about two or three hundred of the enemy occupying the Old Fort, whose position I think is most critical, for, as soon as our troops can take a point in the road, they will be in range of the fort, and will then be able to drop a few shells in the midst of the garrison, which will no doubt create an immediate stampede among them.

The same correspondent mentions the following as among the killed and wounded in the battle of Messaya:

Killed.—Lieut. Tyler O. Gwyn; a lieutenant of artillery, whose name I could not learn. Barely wounded.—Capt. M. A. Frasier (since died); Lt. H. C. West, badly wounded in the leg; Col. Saunders, in the hand and thigh; and others slightly.

EDWARD A. PRUSS.

THE OFFICIAL POPULAR VOTE OF THE UNION.

We are at length enabled to make a pretty accurate and complete table of the popular vote of the United States on the Presidential question. The true figures are about thus—the firstnamed twenty-seven States being officially, and the remaining four are very nearly correct:

Buck. Fill.

Alabama 46,687 28,862

N. Carolina 49,269 36,886

Missouri 58,160 45,521

Kentucky 72,917 65,822

Maryland 39,051 41,462

Delaware 8,103 6,178

Georgia 46,917 44,127

Ohio 170,571 28,125

Indiana 118,675 23,387

Illinois 106,344 37,451

Vermont 10,657 546

Connecticut 24,870 2,742

Rhode Island 6,080 1,075

Iowa 16,241 9,444

Wisconsin 19,152 13,127

Massachusetts 39,240 24,115

New Jersey 46,493 21,255

Pennsylvania 230,509 85,290

New York 195,314 124,266

Wisconsin 58,843 579

Louisiana 23,164 20,709

Tenn. 73,628 65,178

N. Hampshire 32,432 20

Virginia 89,973 60,037

Florida 6,358 4,832

Arkansas 21,396 17,766

Maine 58,036 3,235

S. Carolina 35,000 21,27

Mississippi 35,472 21,27

California 60,000 35,000

Total 1,884,771 835,235 1,338,526

Buchanan's majority over Fremont in the Union is 546,243. The total vote is over 4,000,000 being about double what it was in 1840. Mr. Buchanan has got 250,000 more votes than any other Presidential candidate ever received.

A rencontre took place on Thursday evening, between Elias Lawrence and Robert F. Baird, which came near terminating seriously.

Mr. Lawrence had understood that Mr. Baird had maltreated a young kinsman of his, in a difficulty a few moments before, and asked an explanation. Mr. Baird refused the explanation, stating that it was none of Mr. Lawrence's business. Mr. Lawrence called him a liar, when Baird collared and struck him. Lawrence drew his revolver and fired three times, the balls passing through Baird's clothes and slightly wounding him. How he escaped death, is wonderful.

Twenty-five hundred houses are being built in Paris for the working classes. They are to be in groups of fifty, each group forming a square with an open space in the center. Each house to accommodate six families, at a rent of about \$25 each. Each group is to have a public bake-shop and lathing establishment.

Brownlow's Knoxville Whig says that the mother bank of the Bank of East Tennessee, in that place, is paying out gold for all bills payable at Knoxville—for none others. The same paper says that the Ocoee Bank is one of the safest institutions in the State.

A correspondent of the Boston Post suggests a simple preventive of scarlet fever. He says a globe of Bella Donna, taken every morning by each and every member of a family—adults, children, servants and all inmates—will certainly prevent the spread of this dreadful disease in every household that may adopt it, as certainly as vaccination will prevent the small-pox.

THERE IS A GIFT WITH EACH AND EVERY BOOK SOLD!

\$6,000 WORTH OF ELEGANT

Gold & Silver Watches,

Gold Chains, Gold Lockets,

Gold Rings, Pins, Pencils,

etc., etc.

TO BE PRESENTED IMMEDIATELY TO PURCHASERS.

WE THIS DAY OPEN THE CAMPAGNA DISPLAY!

LOUISVILLE TIMES.

SATURDAY, DECEMBER 20, 1856.

Judge Johnston stated before the Police Court, on Thursday, that the Work House in this city is in a most deplorable situation—indeed, a public nuisance. He discharged several prisoners, from the fact that the place was not fit for their healthy custody.

The Big Sandy has risen about ten feet, letting out a large fleet of coal-boats.

There is now nine feet in the channel from Cincinnati to Louisville.

It was raining last night at ten o'clock.

The Western papers report short supplies of hogs at most of the leading places. Packers seem unwilling to lay at the prices demanded by drivers and farmers, and the latter, sooner than accept less, or holding back or slipping to the West.

Mr. Phipps, whose trial before the Mayor of Covington, for embezzlement and perjury, we have several times noticed, has been discharged.

The Cincinnati Gazette says there was a slight pause in the hog market on Thursday, and packers concluded they would stop and think. Consequently prices declined.

Mr. Orr, of South Carolina, gave Humpy Marshall the following reply the other day, in answer to his windy speech about the Democratic party and Squatter Sovereignty. It proved rather a "settler," for Humpy's never opened his mouth again.

The people of the Territories do not want slavery, they can decline to pass laws for its protection, and that would just as effectual as a law passed to exclude it. Lesers were privileged to be grumblers, and he congratulated them that Kentucky had placed herself in a correct position, by giving her electoral vote to the candidates of the Democracy. Let the gentleman (Marshall) from that Commonwealth take this home, it will be a difference of opinion among Democrats as to Squatter Sovereignty, and let him make the most of it.

Louisville and Nashville Railroad.—We have seen many reports from the officers of this company, giving the progress of the work, but none in which Nashville was interested. The sole idea with these seems to be, how long before the entire trade of Southern Kentucky, bordering upon Tennessee, can be entirely absorbed by Louisville from the completion of that end of the road as far as Bowling Green. The President is in a race with time.

I think I can safely give assurance that by the creation of a fund equal to about \$200,000, to be relied on with certainty to vigorous operations on Mudrow's Hill, the grade will be completed for a continuous track from Louisville to Green River, if, not before, the last day of January, 1857.

It will be well for Louisville, but as Nashville is a party to the enterprise, we would be glad to learn the chances, if there are any, of getting this end of the road completed to somewhere.

The large and profitable trade from the southern portion of Kentucky, with proper railroad facilities, would naturally come to Nashville. Louisville and Gov. Helm understand this, and have been laboring their end of the work, and their indifference to ours. We fear that Nashville will not be much benefited by this enterprise.—*Nash. Union.*

Mr. Payson.—The Washington correspondent of the New York Daily News, in noticing some of the distinguished gentlemen lately on a visit to Washington, pays the following handsome compliment to Mr. Pryor, of the Richmond Examiner:

Roger A. Pryor, the distinguished editor of the Richmond Examiner, is at present in this city. Mr. Pryor is a gentleman who, on account of his eloquence to vindicate the freedom of the press whenever it is assailed in his paper, has unjustly become reputed as a duelist. No man is more proper in the observance of all the delicate relations of life, or more slow to wound the feelings of his fellow-men, than Mr. Pryor, but his principles are so decided in favor of Democratic principles, and indeed party combinations to bully him, and fighting men to endeavor to bully him, but they mistook their game, and found in Mr. Pryor a steaman upon any field worthy of a better steel. Mr. Pryor is an ornament to the press, of which the Washington has just cause to be proud. No writer in the South will be a greater influence with his pen in directing public sentiment than he does.

CITY COURT.

FRIDAY, Dec. 19.
Eliza D. Lawrence, shooting at Hold, F. Baird with intent to kill. Hold of Lawrence in \$1,500 to answer, which was given.

Lawrence was liberated last evening, as he had been wounded, he was recrossed.

City vs. Mary Bolding, ordinance warrant. Convicted.

City vs. James Cotton, ordinance warrant. Discharged.

Henry Carpenter, Dennis Means, and Charles Means, drunk. Discharged.

Ben Farshay was arrested by Officer Poxell for attempting to pass a counterfeit \$5 note on the Mercantile Bank of Bradford on a clothing merchant. He had in his possession five or six notes of the same kind and several on the Kentucky Trust Company.

He said he got the notes from a man in Indiana. He was then committed. Continued.

Good News! Good News.—Coal at one cent per bushel! Who will take a load at this price?

We suppose a large number of purchasers of coal could be found at these rates, but not as many as there are for Porter's Oriental Life Liniment.

Over five thousand bottles of it have been sold in the last month at the principal depot on Third street, where the only genuine Oriental Life Liniment can be found. It has been used with success in 300 cases of frost bites during the present winter. The Oriental Life Liniment is sold at twenty-five cents per bottle, and each purchaser receives a gift worth from ten cents to twenty-five dollars. Among the articles intended for gifts are twenty-five loads of coal; also, an assortment of jewelry, consisting of silver watches, gold pine and ear-rings, gold pens and pencils, fancy work-boxes, double barrel shot guns, books, toys, perfume, &c. Now is the time to get Christmas presents cheap. Remember the place, 96 Third street, near the Post Office.

I remain yours,
GUSTAVUS A. CELOY.

J. N. HARRISON & CO., No. 7, College building, Walnut street, Cincinnati, Ohio, agents for the Southern and Western States, and sold by Drugists everywhere.

Also General Agents for the sale of "Dr. Waver's Ointment and Salt Rennet Syrup and Cough Syrup."

Also agent for Dr. S. O. Richardson's Contracted Cherry Wine Bitters.

George Blanchard!

Has just received by express a large assortment of Dr. Waver's Ointment and Salt Rennet Syrup and Cough Syrup.

Mr. T. F. Morris, 100 Main street, Louisville, Tenn., Oct. 15, 1856.

Sirs.—Grade you to god and suffering human nature, require that I should make known the benefit I have derived from the use of your truly valuable Vegetable Pain Killer, and, if by this means can any sufferer will be induced, as I was, to give it a trial and be healed, I shall be compensated a thousand fold.

In June 1855, after a protracted illness of several months, I was severely attacked with violent vomiting, when attempting to walk, dimness of sight, and loss of appetite, accompanied by fever, difficulty of breathing &c. My physician pronounced my case pneumonia, bordering on the first stage of consumption; and after exhausting his skill, declared positively that I had the consumption, that he could do nothing for me, and that I must die. However, he advised me to use "the best thing" he could find, as the best thing would do which I did, with no effect.

I then made use of four bottles of "Dr. Waver's Ointment and Salt Rennet Syrup and Cough Syrup," which proved indeed.

By this time, my symptoms were, pain in the head, morning, evening, and during the night, darting pains through the chest, burning in the heart, and a constant desire to vomit. My physician said he could not be at all in any desire of my life. What I had, he said, was a "mild" consumption, and, after examining according to his directions, never fails to give me a "mild" consumption.

I further take this occasion in recommending my consumption to all who are suffering from it. I have, I trust, to my young men as are desirous of acquiring a thorough knowledge of Human Body Anatomy, and the use of the best book of reference given, if required.

1 remain yours,
GUSTAVUS A. CELOY.

In June 1855, after a protracted illness of several months, I was severely attacked with violent vomiting, when attempting to walk, dimness of sight, and loss of appetite, accompanied by fever, difficulty of breathing &c. My physician pronounced my case pneumonia, bordering on the first stage of consumption; and after exhausting his skill, declared positively that I had the consumption, that he could do nothing for me, and that I must die. However, he advised me to use "the best thing" he could find, as the best thing would do which I did, with no effect.

I then made use of four bottles of "Dr. Waver's Ointment and Salt Rennet Syrup and Cough Syrup," which proved indeed.

By this time, my symptoms were, pain in the head, morning, evening, and during the night, darting pains through the chest, burning in the heart,
